## MADCAAP'S RULE OF THUMB

*Would I give this to my next-door neighbor?*

While, yes, we know that statements such as “**Somebody could probably use this.**” come from the right place, please think that the recipient of your donation is also human and likes nice things.

It is a form of respect to show our community that their shopping experience is inviting and accommodating. MadCAAP places special emphasis on reorganizing our facility regularly to keep the items up-to-date, organized, and in a clean atmosphere.

**Please, before placing your items in the donation bin, ask yourself the following questions:**

***Is this garment current with the times?*** For example, ask yourself, “*Does this outfit belong to a previous decade?*”

***Has this item belonged to a smoke-free environment?***

***Is (insert name of your donation here) in good and working condition?***

***Is your item a keepsake from a vacation/location you previously visited?*** Items include and are not limited to: refrigerator magnets, plastic or ceramic cups (from restaurants or sports venues), souvenirs, paperweights, keychains, and tumblers.
